

Mobile Controller HY-TTC 94

Functional safety
PL d

Description

The HY-TTC 94 is safety-certified and is the most powerful controller in the 16-bit controller series. It meets all the technical requirements of modern vehicle electronics in the off-highway sector.

The HY-TTC 94 was developed in accordance with the international standard ISO/EN 13849 and is certified by TÜV Nord. Therefore, it meets the requirements of safety level **PL d (Performance Level d)**.

For the CPU, it uses the safety CPU XC2287M which was specially developed by Infineon for safety applications. This offers enhanced safety features for the protection of the internal RAM and Flash memories.

Special features

- **PL d certified**
